MAVEN ROASTERS | BUSINESS INSIGHTS & RECOMMENDATIONS

January - June 2023 | 3 NYC Locations | 149,116 Transactions

Total Items Sold	Average Transaction Value	Total Transactions	TOTAL REVENUE
214,470	$4.69	149,116	$698.8K

KEY BUSINESS INSIGHTS AND RECOMMENDATIONS

01 | Revenue Growth — Sales More Than Doubled
Revenue increased 103.8% from January to June 2023, rising from $81.7K to $166.5K. Transaction volume grew 104.2% over the same period, suggesting growth was driven primarily by increased purchasing activity rather than higher average transaction values.

Recommendation: Investigate the factors behind transaction growth and use monthly demand trends to inform staffing, inventory planning, and future sales targets.

02 | Peak-Hour Demand — Morning Operations Are Critical
Approximately 45.8% of total revenue was generated between 7:00 AM and 10:59 AM, with 10 AM recording the highest transaction volume (18,545 transactions).

Recommendation: Align staffing schedules, product preparation, and inventory replenishment with morning demand to reduce potential service bottlenecks.

03 | Product Performance — Coffee and Tea Drive Core Revenue
Coffee ($270.0K) and Tea ($196.4K) collectively generated 66.7% of total revenue, making them the business's primary revenue drivers.

Recommendation: Prioritize availability of high-demand beverages and test targeted bakery pairings or bundled promotions to evaluate opportunities to increase average transaction value.

METHODOLOGY & TOOLS
Data: Maven Roasters coffee shop transactions | January–June 2023 | 149,116 transactions | 3 NYC locations
MySQL: Cleaned transaction data, standardized dates and product descriptions, created a reusable SQL view, and analyzed sales performance.
Tableau: Built interactive KPI cards, revenue trends, store and product comparisons, and hourly and weekday transaction analyses.
Key Metrics: Total Revenue, Total Transactions, Items Sold, Average Transaction Value.
